2009 Spring **04. 08. 2009**

Advanced Physical Metallurgy
"Amorphous Materials"

Class # Name

1. Explain glass transition using Gibbs free energy curve and phase diagram.

2. The glass transition is not a simple second-order phase transition. Bring two clear evidences for this statement.

3. Describe the laws of thermodynamics.

Prof. Eun Soo Park
Department of Materials Science and Engineering/Seoul National University
